National Science Week: 11, 14 or 18 August 2017
Promote science to your students by doing a *Physics is Fun* excursion to celebrate National Science Week!

These **Fun Park Excursions** are presented by experienced teachers to support and promote excellence in education. The worksheets have been prepared by experienced secondary and primary teachers.

Physics is Fun was co-authored in 1983 by Robert Garner and Sylvia Jennings. It was based on their earlier science excursions to Luna Park in the 1970's. These primary and secondary *Fun Park Excursions* have been conducted and organised by Robert Garner since their inception. They have been held at Luna Park (1983–87, 1995) and Wonderland Sydney (1990–2004), and returned to Luna Park Sydney in 2004 and onwards.

The 2017 Fun Park Excursions are conducted by *Physics is Fun* and are brought to you once again by Robert Garner and Catherine Odlum.
